PROFILE

A passionate and detail-oriented Frontend Developer with a strong foundation in React.js, HTML5, CSS3, and JavaScript. Possesses hands-on experience in building responsive, dynamic, and user-friendly web applications, leveraging modern web development practices. Adept at integrating APIs, handling state management, and implementing frontend components with clean and maintainable code. Proven ability to deliver quality solutions within tight deadlines. Skilled in debugging, optimizing, and improving the performance of web applications. Eager to apply my expertise in frontend technologies to contribute to the development of impactful user interfaces and seamless user experiences.

SKILLS

Technical: HTML5, CSS, JavaScript, ReactJs, MUI, C, C++, Python, Java, SQL, Linux

Tools: Git, GitHub, Chrom DevTools, Visual Studio Code (VS Code), Bootstrap, Fetch API, Axios, LocalStorage API,

Canvas API, Google Docs, Visual Studio (.Net)

CERTIFICATIONS

- React Development - Crio.Do
- Carrier Growth in Tech - Crio.Do
- Software Development Fundamentals - Crio.Do
- Advance JavaScript - Crio.Do

EXPERIENCE / INTERNSHIPS

Generix Infotech	Jamshedpur, India
Software Developer Intern	Dec 2023 - Jun 2024

- Developed a complete **GST Billing Software** using **C# and SQL Server**, aimed at automating small business invoicing and tax management.
- Designed and implemented intuitive **UI screens** for invoice generation, tax calculations, and customer data input using Windows Forms.
- Integrated **SQL database** to handle real-time storage and retrieval of invoices, customer records, and tax reports.
- Reduced manual processing by 60%** and improved billing/reporting turnaround time through system automation.
- Collaborated with a 3-member team and participated in **requirement gathering, module design, and deployment** process.
- Received positive feedback from senior developers for clean code, structured database design, and quick debugging.

PROJECTS

QKart – eCommerce Frontend

(February 2025 – April 2025)

Tech Stack: React.js, React Router, MUI, Axios, Bootstrap

- Built a responsive and fully functional eCommerce frontend with features like **product listing, category filtering, search, and shopping cart**.
- Implemented **user authentication**, secure login, and persistent session using **localStorage**.
- Integrated **REST APIs** for fetching product data, cart actions, and user login using **Axios**.
- Used **Material UI and Bootstrap** for consistent, mobile-friendly UI with dynamic components.
- Achieved real-time feedback and loading states with **conditional rendering** and `useEffect`.

TripDynamic – Travel Booking App

(January 2025 – February 2025)

Tech Stack: HTML5, CSS3, JavaScript, Bootstrap

- Developed a dynamic travel booking interface where users can **search for adventures, book activities**, and view confirmations.
- Captured user data via forms and used **Fetch API** to POST reservation details.
- Handled **conditional DOM rendering** to show booking success/failure status.
- Implemented **date validations, real-time form handling**, and mobile-friendly layouts.
- Practiced modular coding and vanilla JavaScript to mimic real-world frontend logic.

XBoard – News Dashboard

(November 2023)

Tech Stack: HTML, CSS, JavaScript

- Created a modern and responsive **news aggregator dashboard** fetching data from **Flipboard RSS feeds** (converted to JSON).
- Designed and developed **accordions and carousels** to categorize news efficiently.
- Implemented smooth transitions and responsive layout for better user experience on both desktop and mobile.
- Practiced **DOM manipulation**, event handling, and clean UI/UX structure.

ACHIEVEMENTS

- NCC ‘A’ Certificate Holder** – Received training in leadership, discipline, and teamwork through the National Cadet Corps.
- Captain, School Football Team** – Led the team to victory in inter-school tournaments, fostering teamwork and strategy.
- Black Belt in Japanese Karate** – Awarded by All India Karate Association; participated in district-level championships.
- Finalist – Inter-School Quiz Competition** – Represented school in general knowledge and aptitude quiz competitions.
- Winner – School Football Tournament** – Recognized for performance and leadership on the field.
- Active Cricket Player** – Participated in school-level and local club matches.
